'blank check'

that can be honored for any amount of money.....

James Carlton discovered his through offering opportunities that “help others rise above mediocrity”, and became wealthy in doing so.

Dear Friend,

Imagine you had a blank check and you could write yourself any amount of money you chose. How much money would you give yourself.....a few hundred \$\$.....\$1 million.....? Or would the amount be even higher?

We all have such a ‘blank check’ and James Carlton believes that by helping others you can fill in any amount you choose, and you can do it in the real world, not in fantasyland. James Carlton further believes, not only believes, but...he knows, that the only people that can truly be helped are those that are willing to help themselves.

You may be thinking, “What sort of blank check could do that and where do the funds come from?”

The ‘*Shared CASH*’ information will show you where the funds come from, as well as how to access them. And the money is real, cold, hard cash. But it’s also more than that. In fact, it’s the kind of wealth that can make you rich in every way you can imagine. James Carlton is living proof of this, and on August 1, 2003.....James decided to began helping more people by sharing his business profits with every customer. If a person will show that they are willing to help themselves by buying a product, even at the minimal cost, then I will know that they are putting forth an effort to help themselves and in return I will share my profits with them.

James Carlton, though wealthy, has a lifestyle that is actually quite modest. He never flies first-class, is a down-to-earth hands-on man, and drives his own car, picking from several he owns. He spends some time on his boat, or riding his motorcycle, but lives year-round in a small home in North Florida with a park-like setting, even though he owns other properties. He seldom watches TV, and he spends most of his time contemplating the mysteries of life and giving back to society through his projects. James Carlton has been in business for many years and has had the same mailing address since 1971.

One of James Carlton’s most powerful convictions is that: *Spiritual principles are also guiding financial principles that can make you rich.* The realization that we are all ONE and *Sharing Without Attachment* is the key. The universe is abundantly wealthy. No man need go lacking. Share with others and fill in your own *blank check!*

“Economically Sovereign”. To be economically sovereign means that you are a self-governing individual who is financially self-sufficient and not indebted or controlled in any way by an outside source (credit cards, loans, interest etc). This means that you exist as an individual who owns and controls his/her labor and income and that you are in possession of an ever increasing capital base that affords you the lifestyle of never having to borrow for any reason, because your wealth increases more rapidly than you can spend it. To be economically sovereign you must possess specialized techniques or a specialized system that will allow you to generate wealth without working for someone else. A system that will produce an enormous cash flow to release you from your perpetual debt cycle and place you into a position of financial independence. James Carlton has prepared such a system for you.
